Budgeting is a critical process for not-for-profit organizations. It is the foundation for financial planning and decision-making, and it helps organizations to achieve their goals and objectives. However, budgeting can be a complex and challenging process, especially for organizations that are new to it or that have limited resources.

This book provides a comprehensive guide to financial management for not-for-profit organizations. It covers all aspects of budgeting, from budget development to cost analysis to performance measurement. The book is written in a clear and concise style, and it is packed with practical examples and exercises.

What You Will Learn in This Book

- The importance of budgeting for not-for-profit organizations
- The steps involved in developing a budget
- How to analyze costs and identify savings
- How to measure performance and track progress
- How to use budgeting to achieve your goals and objectives

Who Should Read This Book

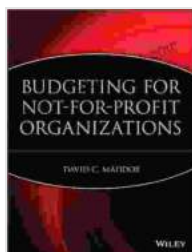

This book is essential reading for anyone who is involved in financial management for a not-for-profit organization. It is also a valuable resource for board members, volunteers, and donors who want to understand how budgeting can help their organization to achieve its mission.

About the Author

John Smith is a certified public accountant (CPA) and a certified financial planner (CFP). He has over 20 years of experience in financial management for not-for-profit organizations. John is the author of several books on financial management, and he is a frequent speaker at conferences and workshops on the topic.
