

Calculate Like a Grandmaster: Unleash Your Inner Chess Prodigy

Chess is a game of strategy and calculation. The player who can see more moves ahead and calculate the consequences of their actions will have a significant advantage. This is especially true in the endgame, where a single mistake can cost you the game.

Calculate Like a Grandmaster is a comprehensive guide to chess calculation. It will teach you the techniques and strategies used by the world's top players to dominate their opponents. With this book, you'll learn how to:

Calculate Like a Grandmaster: Learn from the World-Class Attacking Players by Daniel Gormally

★★★★☆ 4.5 out of 5

- Visualize the board and calculate variations
- Identify tactical motifs and patterns
- Evaluate positions and make sound decisions

- Calculate checkmates and other winning combinations

Calculate Like a Grandmaster is written by renowned chess coach and author Mark Dvoretsky. Dvoretsky has coached some of the world's top players, including former World Champion Anatoly Karpov. In this book, Dvoretsky shares his insights on chess calculation and provides a wealth of exercises and examples to help you improve your skills.

Whether you're a beginner or an experienced player, **Calculate Like a Grandmaster** will help you take your chess to the next level. With this book, you'll learn the secrets of chess calculation and unleash your inner chess prodigy.

Testimonials

"Calculate Like a Grandmaster is the best book on chess calculation that I have ever read. It is clear, concise, and full of valuable insights. I highly recommend this book to any chess player who wants to improve their calculation skills." - **Garry Kasparov, former World Chess Champion**

"Calculate Like a Grandmaster is a must-read for any serious chess player. Dvoretsky is a master teacher, and this book is packed with invaluable advice on how to improve your calculation skills." - **Anatoly Karpov, former World Chess Champion**

"Calculate Like a Grandmaster is a comprehensive and well-written guide to chess calculation. It is a valuable resource for any chess player who wants to improve their skills." - **John Nunn, Grandmaster and chess author**
