

Handbook for Building Patient Centric Practice with Optimal Outcomes

The Essential Guide to Patient-Centered Care

In today's healthcare landscape, it is more important than ever to put the patient at the center of care. Patient-centered care is an approach to healthcare that focuses on the individual needs and preferences of each patient. This approach has been shown to improve patient satisfaction, adherence to treatment plans, and overall health outcomes.

The Business of Brain Tumors: A Handbook for Building a Patient-Centric Practice with Optimal Outcomes
