Kiyosaki argues that the old rules of money no longer apply. In the past, people could get rich by buying real estate, investing in stocks, or starting their own businesses. However, these strategies are no longer as effective as they once were. The real estate market is saturated, the stock market is volatile, and starting a business is more difficult than ever.

So, what's the answer? Kiyosaki believes that the key to financial success in the new economy is to focus on creating value. This means developing skills and knowledge that are in high demand, and then using those skills to create products or services that people want. He also emphasizes the importance of building a strong network of relationships, and of investing in yourself and your education.

*No Wealth Attraction In The New Economy* is a must-read for anyone who wants to achieve financial success in the 21st century. Kiyosaki's insights are sharp, his advice is practical, and his message is clear: the old ways of getting rich are dead. If you want to succeed in the new economy, you need to change your mindset and focus on creating value.
