Reimagining the Arts Dividend

In "The Arts Dividend Revisited," Lynch challenges us to rethink the traditional notion of the "arts dividend" and embrace a more comprehensive and inclusive vision for the arts in the 21st century. He argues that the value of the arts extends far beyond their economic impact and that we must recognize and support the full range of benefits they offer to our lives and societies.

This reimagined arts dividend encompasses not only the individual, community, and societal benefits discussed above but also the intrinsic value of the arts as a source of beauty, joy, and meaning. It recognizes that the arts are not merely a luxury but a fundamental human need and a vital component of a fulfilling and prosperous society.
