A Cutting-Edge Guide to International Investment Law

This authoritative work provides a comprehensive overview of the legal framework governing investment treaties, exploring their history, negotiation, interpretation, and enforcement. It delves into the substantive provisions of investment treaties, such as fair and equitable treatment, expropriation, and umbrella clauses, providing detailed analysis and practical insights based on the latest case law and arbitral decisions.

The book examines the role of international arbitration in investment disputes, covering the main arbitral institutions, procedural rules, and substantive issues arising in investment arbitration. It analyzes the complex interplay between international investment law and other areas of law, including human rights law, environmental law, and international trade law, highlighting their impact on the interpretation and application of investment treaties.
